

# Nene Decks Wire mesh decking

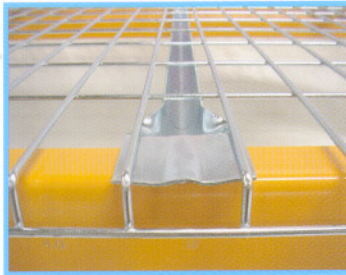

Nene

## Wire mesh decking

A pre-manufactured strong & cost effective alternative to timber which maintains the integrity of overhead sprinkler coverage - a fire safety choice.

Available from stock in 910 & 1110mm depths & in widths to suit most beam lengths. Other sizes available to order.

- 1000kgs uniformly distributed load per panel
- Fits box or stepped beam
- Superior electro-galvanised finish
- Rust free & durable
- Easy to install - no fixing
- Can reduce insurance premiums
- Clip on dividers optional
