Warehouse Design

Warehouse Design

Whether you are building new premises, relocating your facility or even reconfiguring your existing warehouse, we can help.

Expert Advice

Our team of expert warehouse designers will carry out a comprehensive survey of your warehousing and racking needs, understanding your pressure points and getting to grips with what you would like to achieve.

Comprehensive Design

With a focus on making your warehousing work harder for you, our team will put together a comprehensive warehouse design that is cost effective, efficient and ultimately does exactly what you need it to.

Built for your Business

After a full site survey and in-depth consultation, we will present our recommendations for the best warehouse design to meet your particular logistical and business needs. Not only will the plan show our recommended layout, it will also include all the technical data related to racking configuration, mezzanine floors, office layouts and any other required components.

Why not make use of Nene's free warehouse design service?

Warehouse design is a crucial part of any company's supply chain strategy. The ideal warehouse design will provide a fantastic return on investment, by ensuring that products can be received and distributed rapidly while orders continue to be maintained in a speedy and safe way. As such, it is important to question how your warehouse should be optimised and which important factors must be taken into consideration.

Things to Think About:

1. Consider equipment requirements
2. Determine what products will be stored
3. Explore the necessary space and volume
4. Assess the need for personnel
5. Evaluate product circulation

Nene Warehouse Solutions manage over 10,000 sites across the UK, from design to complete warehouse turnkey solutions. If you have any questions regarding your warehouse, please contact one of our team.

Effective and Efficient

Our remit is to make your warehousing and racking solutions work harder for you, maximising your return on investment and optimising your business efficiency.
